HQSYN16 - Task #3682

RA4c - Hybrid approaches

12.01.2016 16:55 - Matoušek Jindřich

Status:	New		**Start date:**	19.01.2017
Priority:	Normal		**Due date:**	31.12.2018
Assignee:			**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	RA4: Automatic error prediction and signal modification			

Description			
Parent task for hybrid approaches to speech synthesis **Estimated time schedule:** 01/2017 - 12/2018			
Subtasks:			
Task # 4153: Hybrid neural network / unit selection approach			**Closed**
Task # 4154: Hybrid HMM / unit selection approach			**Closed**
Task # 4463: First Steps Towards Hybrid Speech Synthesis in Czech TTS system ARTIC			**Closed**
Task # 4416: Corpus resynthesis			**Closed**
Related issues:			
Related to HQSYN16 - Task #4151: Neural network based statistical parametric ...	**Closed**	19.01.2017	31.12.2018
