

HQSYN16 - Task #3944

Task # 3669 (New): RA1a - Analysis and cataloguing of artifacts

Task # 3714 (Closed): WebProkus - software for analysis of synthetic speech

Commit changes based on user(s) logged in/out

15.06.2016 10:23 - Tihelka Dan

Status:	Closed	Start date:	15.06.2016
Priority:	Low	Due date:	30.11.2016
Assignee:	Tihelka Dan	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	RA1: Analysis of artifacts in synthetic speech		
Description Would it be possible (and not too difficult) to trigger commit of ASF changes when all users working on the given language are logged off, instead of explicitly waiting 1 hour?			

History

- Due date set to 30.11.2016

Jakub, any comment on this proposition?

#2 - 15.09.2017 14:57 - Vít Jakub

- Status changed from New to Resolved

I don't think that this is necessary. It is hard to detect when user closes up the browser. The current state is better in my opinion.

#3 - 17.09.2017 20:10 - Matoušek Jindřich

- Assignee changed from Vít Jakub to Tihelka Dan

According to Jakub, this is not an easy job. I move this issue back to Dan - please revise it and possibly close the issue.

#4 - 18.09.2017 08:43 - Tihelka Dan

- Status changed from Resolved to Closed

OK. I have no problem with closing it when it is too difficult. I just wanted to avoid a partial commit, when one user modifies something and another user will start on it few dozen minutes after (not finishing it within the hour window, or so) ...
